SUMMARY

I'm a Computer Engineering graduate looking for a role where I can keep learning, grow professionally, and be part of a company that values teamwork and results. I've had experience working in factory operations and have a good foundation in hardware systems, software testing, and basic cybersecurity. I'm confident in troubleshooting and technical support, and I enjoy solving problems. I'm flexible, quick to adapt, and I do well even under pressure. I'm excited to take on new challenges and keep improving along the way.

WORK EXPERIENCE

QA Software Tester (Student Internship Program) , Sophie's Information Jan 2025 - May 2025

Technology Services

- Completed hands-on training in software testing fundamentals including writing test cases and scenarios, performing functional, regression, and performance tests, and reporting bugs.
- Applied skills on real web projects with the Local Government Academy, including a budgeting platform. Created and executed test plans, logged defects, and collaborated with the team using tools like Trello.

Operator, Epson Precision Philippines Incorporated, Lipa City, Philippines Oct 2020 - March 2021

- Assembled printer components and units following standard work instructions.
- Performed visual inspections and basic quality checks on finished products.

ACADEMIC PROJECT

AUTOMATED KOI FISH AQUARIUM WITH MONITORING SYSTEM USING

ANDROID APPLICATION

- Developed an Android-based system to help owners monitor water quality in real time. The system measures pH, TDS, oxygen, and temperature, making it easier to decide when to change the water.

EDUCATION

Bachelor of Computer Engineering Sept 2021 - July 2025

STI College Lipa

General Academic Strand

August 2018 - March 2020

STI College Lipa

ADDITIONAL INFORMATION

- **Technical Skills:** Hardware Troubleshooting and Maintenance, Software Testing (Manual & Automation), Basic Cybersecurity Knowledge, Computer Networking, Arduino and IoT Projects.
- **Languages:** English, Filipino
- **Certifications:** ISC2 Certified in Cybersecurity (CC) – Certificate of Completion, Web Security Testing (Certificate of Completion)
- **Awards/Activities:** Best Capstone Project, Best Research, Best in Implementation, Loyalty Award, Dean's Lister (2021–2022) – Recognized for academic excellence
- **Tools & Platforms:** Trello, JMeter, Postman, Selenium (basic), Visual Studio, Arduino IDE, Burp Suite, Microsoft Office ,Google Workspace
- **Programming Languages:** Java, JavaScript, SQL(Basic)
